<Work>

📄 Showcase

<https://www.showwcase.com/>

A brand new way to engage and connect across the worldShowwcase is a network built for coders. It's a platform to connect, share knowledge, code, what you're working on, gain feedback, learn, ask questions and find new opportunities in the tech community.

Platform: Web, Android, iOS

Roles: Frontend Developer

Stack: React REACTQUERY NextJS Flutter

📄 StarmathOnline

<https://starmathsonline.com.au/>

It is Australia's first primary maths software to deliver a tailored learning experience to every child! It is fun, engaging and deliver results!

Platform: Web, Android, iOS

Roles: Technical Architecture, Frontend Developer, Backend Developer

Stack: React PHASER NodeJS .NET MSSQL SOCKETIO MongoDB

📄 CTRWOW

Created By Performance Marketers Who Care About Performance

CTRwow is an enterprise-level content management system with full funnel-building, analytics and tracking designed specifically for advertisers, affiliates, media

buyers, and others in the performance marketing industry. CTRwow is an approved sales channel for Shopify allowing easy and full integration to Shopify.**Platform:** Web

Roles: Team Lead, Frontend Developer

Stack: React .NET Azure AzureFunctions MongoDB

📱 Collaboration Dashboard

A powerful tool for presentation and analytics data

Most business applications have some kind of dashboard that gives a top-level view of various functions, but there is a problem with these dashboards. We think we have built something that can solve it. It includes a bundle of modules:

- User Management
- Dashboard Management
- Messenger
- Document Management
- Geofence Management
- Presentation Management
- Alert / Notification
- Report Builder

Platform: Web

Roles: Main Developer

Stack: React .NET Redis MongoDB MSSQL MySQL D3

📱 InfinitiKloud

<https://www.infinitikloud.com/download-app.html>

The Easy, Secure Way to Keep Your Data Safe

Discover the one-click back-up device for your computer or phone that anyone can use

Platform: Desktop, Android, iOS

Roles: Technical Architecture, Team Lead, Frontend Developer, Backend Developer

Stack: ReactNative Azure AzureFunctions NodeJS MongoDB Electron IOT

📱 AutomendPro

<https://www.buyautomendpro.com/>

Easily Diagnose Your Car's Problem – Right from Your Cellphone!

The Helpful Tool that Connects to Your Vehicle for Honest Repair Advice

Platform: Android, iOS

Roles: Technical Architecture, Team Lead, Frontend Developer

Stack: ReactNative Azure AzureFunctions NodeJS MongoDB IOT

📱 YehYeh

https://play.google.com/store/apps/details?id=com.yehyeh.nfc&hl=en_AU&gl=US

Share All Your Social Media With A Tap

YehYeh is the quick and easy way to share your social media links and contact info – all with just a tap. Do away with the chore of swapping contacts and trying to remember all your usernames with a simple tap of your phone.

Platform: Android, iOS

Roles: Technical Architecture, Team Lead, Frontend Developer, Backend Developer

Stack: ReactNative FIREBASE Azure AzureFunctions NodeJS MongoDB IOT

📱 Nerlos

<https://apps.apple.com/vn/app/nerlos/id1531683195>

Nerlos Smart Tag & Key Finder

Nerlos is the game-changer Bluetooth-enabled device tracker that combines a reliable app with a tiny device that turns it into a key finder, phone tracker, and all-around device locator at your fingertips.

Platform: Android, iOS

Roles: Technical Architecture, Team Lead, Frontend Developer

Stack: ReactNative FIREBASE Azure AzureFunctions NodeJS MongoDB IOT

📱 YMLGEN

<https://marketplace.visualstudio.com/items?itemName=ling2js.ymlgen>

A generator for YML/YAML files

Generate one or many files from YML/YAML config file

Roles: Main Developer

Stack: VSCODE Typescript LERNA Jest NPM OPENSOURCE

📱 Rativ

<https://www.npmjs.com/package/rativ>

A React library for creating reactive components

Roles: Main Developer

Stack: React Typescript LERNA Jest NPM OPENSOURCE

📱 Domez

<https://www.npmjs.com/package/domez>

A tiny lib for DOM rendering

Roles: Main Developer

Stack: Typescript LERNA Jest NPM OPENSOURCE

📱 Memosel

<https://www.npmjs.com/package/memosel>

A library for creating memoized "selector" functions

Roles: Main Developer

Stack: Typescript LERNA Jest NPM OPENSOURCE

📱 Rtkex

<https://www.npmjs.com/package/rtkex>

An extension for Redux Toolkit

Roles: Main Developer

Stack: Typescript React Redux LERNA Jest NPM OPENSOURCE

📱 Styman

<https://www.npmjs.com/package/styman>

Styling your app with ease

Roles: Main Developer

Stack: Typescript React LERNA Jest NPM OPENSOURCE

📄 Apiiz

<https://www.npmjs.com/package/apiiz>

Create API mappings with ease

Roles: Main Developer

Stack: Typescript LERNA Jest NPM OPENSOURCE

📄 Immhelper

<https://www.npmjs.com/package/immhelper>

Fast and lightweight library helps you to update js objects without mutating them

Roles: Main Developer

Stack: Typescript LERNA Jest NPM OPENSOURCE

📄 REXQ

<https://www.npmjs.com/package/rexq>

Extensible Query for REST API

Roles: Main Developer

Stack: Typescript GraphQL LERNA Jest NPM OPENSOURCE

📄 Cubix

<https://pub.dev/packages/cubix>

A predictable state management library that based on BLOC library. Easy to use and maintenance.

Roles: Main Developer

Stack: DART Flutter OPENSOURCE
